## ACADEMIC PROJECTS

- ❖ **CRUD APP (using PHP and etc.)**

This project involves developing a basic CRUD (Create, Read, Update, Delete) application within the scope of the PHP subject in college. It encompasses essential database operations such as inserting, reading, searching, updating, and deleting data. Despite its size, this application serves as an invaluable learning experience in database management and PHP implementation.

- ❖ **MY PORTFOLIO WEBSITE (using Html,Css,Js,TailwindCss,GoogleDoc and etc.)**

With this website, I've applied a myriad of skills encompassing HTML, CSS, JavaScript, Tailwind CSS, Google Docs, Git, GitHub, and more. This marks my inaugural foray into website development, where I've harnessed a diverse skill set to bring this project to life.
